Introduction

I am Gurleen Kaur, a motivated Computer Science Engineering student with a strong interest in Web Development, Machine Learning and Artificial Intelligence. I am passionate about building intelligent systems and creating user-friendly web applications. I am eager to apply technical skills, learn new technologies and contribute to impactful projects in the field of modern computing.

Education

- **B.Tech in Computer Science Engineering**, GNDEC, Ludhiana
CGPA: 7.3
- **XII**, Sri Guru Hargobind Public School, Thakkarwal, Ludhiana, Punjab (2022)
Percentage: 80.2%
- **X**, Sri Guru Hargobind Public School, Thakkarwal, Ludhiana, Punjab (2020)
Percentage: 74.2%

Academic Project

- **Speech Based State of Mind Detection and Analysis:** Developed And Implemented a Speech-Based System for Real-Time State of Mind Detection and Analysis. This project involved the application of machine learning algorithms to analyse vocal patterns, identifying and interpreting emotional and cognitive states.

Personal Projects

- Developed a Library Management System in CPP.
- Developed a Bank Management System in CPP.
- Created an AI Text Summarizer using AI.

Trainings

- **Infosys:** One-month training in Python covering fundamentals and advanced concepts.
- **GNDEC, Ludhiana:** One-month training in Mastering the Semantic Web.

Technical Skills

- **Languages:** C++, Python
- **Developer Tools:** HTML, CSS, VS Code, Canva, Jupyter
- **Machine Learning:** Scikit-learn, Pandas, NumPy
- **Databases:** SQL
- **Others:** MS Word, Excel, GitHub

Soft Skills

- Teamwork Collaboration and Communication
- Time Management and Multitasking
- Problem-Solving
- Creativity

Strengths and Weaknesses

Strengths:

- Quick learner
- Independent and team worker
- Strong communication

Weaknesses:

- Sometimes spend too much time perfecting code; working on balancing quality and efficiency
- Overcommit tasks; currently improving

Achievements & Participation

- Completed Infosys Python Training, gaining hands-on experience with advanced programming concepts.

Areas of Interest

Web development, AI and ML, Prompt Engineering, Cricket, Listening Songs
